WORK EXPERIENCE

Freelance SEO & Web Developer

2020 – Present

Self-Employed | Remote

- Built and launched dvtik.com — a TikTok video downloader — managing full-stack development, deployment, and maintenance
- Grew organic traffic through technical SEO: keyword research, meta optimization, page speed improvements, and backlink building
- Managed social media presence and content strategy across multiple platforms to drive consistent user acquisition

Truck Dispatcher

Jun 2023 – Sep 2023

A&N Logistics, Multan

- Coordinated daily freight operations, route planning, and real-time driver communication to ensure on-time deliveries
- Maintained structured shipment records and documentation, improving overall dispatch efficiency

ACADEMIC PROJECTS

NotesByRaheem.xyz — Full-Stack Web Platform

2025

Supabase • HTML/CSS/JS • PostgreSQL • Admin Dashboard

- Built a notes-sharing platform for university classmates with user auth, file uploads, and an admin approval workflow
- Implemented class chatrooms and a leaderboard to reward top contributors; fully deployed end-to-end

DSA Project — C++

2024

- Implemented graph and tree-based algorithms to solve a real-world problem; optimized for time and space complexity

DBMS Project — SQL / Oracle

2024

- Designed a normalized relational schema with stored procedures, triggers, and views for a student management system

OOP Project — C++

2023

- Built a multi-class application using inheritance, polymorphism, and file I/O to simulate a library management system
